

CALAVERAS PUBLIC UTILITY DISTRICT

ADDENDUM NO. 1 TO REQUEST FOR PROPOSALS

Railroad Flat Water Treatment Plant Salt Storage Building Design-Build Project

Design-Build Entity's (DBEs) attention is directed to Section 1.1, Basic Scope and Project Needs. This section is amended to include the following:

In addition to the building criteria listed on pages 2 and 3 of the Request for Proposals, the DBE shall include a price for the salt storage building that would also **include** steel gutters and R-10 fiberglass wall and roof insulation.

Additionally, the DBE shall provide a **separate** price quote for the salt storage building that **excludes** windows, steel gutters, and R-10 fiberglass wall and roof insulation.

Proposals are due by 3:00 p.m. on August 7, 2018.

Matt Ospital, City Engineer
